

Dashboard Screenshots

A screenshot of a Tableau dashboard titled "ToyCraft Tales: Tableau's Vision into Toy Manufacturer Data". The dashboard is displayed on a computer screen with a yellow arrow pointing to the author's name, "toy craft tales by Kamineni Sai Harika".

The dashboard contains four main visualizations:

- Top 10 state Toy Manufacturers in US States:** A horizontal bar chart showing the count of project data for each state. The data is as follows:

State	Count of project data
Alabama	12
Arizona	12
Arkansas	12
California	12
Colorado	12
Connecticut	12
Delaware	12
Florida	12
Georgia	12
Idaho	12
- Analysis on Toy Manufacturer Index:** A histogram showing the count of index values. The x-axis represents the index bin, and the y-axis represents the count of index. The data shows a distribution where the count peaks around index bins 20-30 and then decreases.
- Analysis on number of Manufacturers by Year:** A visualization showing the count of manufacturers over time. The chart is partially visible at the bottom left.
- Analysis on Toy Manufacturer Data:** A visualization showing the count of manufacturers over time. The chart is partially visible at the bottom right.

At the bottom of the screen, there is a weather widget showing "21°C Mostly clear" and a taskbar with various icons.
